

Witchcliffe Workshop Outcomes

Project	Leisure Planning I Public Open Space
Workshop name	Witchcliffe Community Workshop
Date	7 March 2023
Time	5pm – 7pm
Venue	Druid's Hall

Community Workshop Idea Generation

Witchcliffe

- Service levels, local flag chardonnay, i.e., park for locals, each witchy area needs a local style park (not only playground) and toilets.
- An option for a park with playgrounds, toilets, picnic tables etc,
- consider mammoth side of railway reserve for RV parking as well.
- Post and rail fence with gravel areas between trees, picnics etc.
- Monument t group settlement (groups)
- More pos for Witchcliffe
- Very disappointed that reserve on Redgate does not have the promised (planned) POS
- Playground split between two locations, reserve on Redgate and Leeuwin parklands, age inclusive from small to children to older children e.g., Cowaramup playground for example plus size
- Monitor height of playground (not too high), no car park or toilets, and able for children to walk to after school.
- People needs trees for mental health and animals needs trees for their homes and to survive (tree-based recreation)
- All trees to be retained
- A number of recreation facilities for different age groups e.g., BMX track, skatepark, tennis courts, swings near trees at polo field and playground at the housing estates.
- Developers to pay old fashioned swings.
- Keep trees, keep POS
- What's happening with the reserve bush south pf Redgate road?
- Bare foot run, bike tracks all age inclusive
- Have a location at all locations, apart from druid's hall, done before didn't work the area is too small and it doesn't suit functions tavern, leave druids hall alone please.
- Nature playground at Leeuwin
- Seniors' oval
- C.W.A best site, best parking, toilets at C.W.A
- Long board snake run, Greenscape hill
- A rope swing, ideally into water.
- Focus on valuing existing old growth, trees.
- Indoor recreation facility with stage for multiuse e.g., volleyball, basketball, indoor tennis etc, diverse sports for adults and kids
- Skate zone, pump track, rails, basic skate equipment, playground for young kids, access?
- Mountain bike, jump track

- 2x tennis courts mixed use, including a hit up wall and two basketball courts
- Bare foot running/jogging tracks through conservation area.
- Parking at Redgate road
- Polo field: football and cricket, save existing trees, “nature” playground, public toilets, we would be using public space, saving trees, reducing infrastructure costs and reduces pressure on high quality forests.
- BBQ’s on pike field
- CWA area: add a small playground to existing area where there is also some sporting activities
- Keep druid area as is, no need for playground here.
- Wherever we develop facilities we need access to and from houses to POS, e.g., walk/ride path along Redgate road could go all the way to beach from centre.
- Nature play, adjacent forest and lone trees are more resilient and less vulnerable than conservation areas elsewhere.
- Multi use polo, e.g., AFL, soccer, cricket etc.
- Sporting ground with playground at polo oval.
- Dog water stations at parks
- Tennis courts at CWA and playground for smaller kids and adult exercise equipment.
